Pearson chemistry textbook online free pdf full pdf

Today, reaching every student can feel out of reach. With MyLab and Mastering, you can connect with students meaningfully, even from a distance. Built for flexibility, these digital platforms let you create a course to best fit the unique needs of your curriculum and your students. Each course has a foundation of interactive course-specific content — by authors who are experts in their field — that you can tailor and assign as you see fit. Digital tools activate learning, to more fully engage learners. And online assessments and data tell you how students are doing, as they go, so you can decide what to teach and how best to teach it. The result? Personalized learning that reaches every student. Whether you have five students or 500, MyLab and Mastering can help you deliver the outcomes you aspire to. Learn more about the features and benefits of MyLab and Mastering. Increasing cohort sizes means it's harder than ever to manage students and keep them engaged. At Pearson we can help by offering fast and affordable access to digital teaching, learning and assessment solutions and services. Alongside trusted textbook content from authors such as Appling and McMurry, we can help you personalise learning, automate marking, increase engagement and understanding and give your students a safe space to practice their subject and grow in confidence. — Student, University of Hawai'i at Hilo Browse papers and testimonials Can't find a text to match your course? From eBooks to whole online courses, we work with instructors to create a customised print or technology solution specific to your course.
